

Submitter: dominic andreotti

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

This bill is racist and attacking people of color and minorities that are low income. How do you expect low income people to pay for classes, find and pay for child care to go to these classes, and have the time to take these classes. This bill will do the opposite of making people safer as people will take the easy way and turn to the black market and get what they need cheaper and faster to be able to protect their loved ones and themselves.
