On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I Paul Wanner do oppose the HB 3075. This house bill 3075 and legislators pushing it continue to attack law abiding citizens by interfering with the constitutional rights of all American citizens. This HB 3075 is effectively making sure the criminals have the upper hand by restricting law abiding citizens access to firearms. This is plainly and clearly the intent of this House bill. Scrap this bill and get to work fighting crime, not law abiding citizens.
