HB3755

I heartily support HB3755 and granting mature seniors an economic tax break. They have been citizens of Oregon and worked hard in their youth and many just now making it by on fixed income. Social Security yearly increases NEVER keep up with the annual inflation, so their dollars are always shrinking. I am a disabled veteran and on fixed income. More than 10% of my gross income goes to maintain my property tax payments. This percentage always grows year to year, so at some point I will not be able to afford to own my own home. Where will I go then? IF the legislators of Oregon are elected to keep its citizens safe and secure in their businesses, homes, and schools then please pass HB3755. Forcing one out of their own home due to taxation in our senior years is nothing short of thief by Oregon government. Please be wise and compassionate to the pioneers that have served and grown this beautiful Oregon state by passing HB3755.
