Measure, Appointment or Topic: HB3075

I oppose this bill as everyone of us in this state has the right to be able to defend our selfs. If someone that doesn't follow the laws comings after us. Look and Chicago has the gun laws made that city any safer, I would argue No it hasn't. The bad guys don't follow the laws so Please don't make it harder for me to defend myself and my family. As for the mag limits why limit how many chances I have to defend myself or my family if there is more then one person attacking us.
