Measure, Appointment or Topic: SB681

I wish to express strong support for SB681.

I am an Oregon PERS retiree. The stability and security of the State's retirement fund is important to me. I also believe that carbon emissions from fossil fuels are causing climate change that is already having catastrophic consequences for people all over the world, including here in Oregon. SB681 is wise in its care regarding PERS investments. It is also ethical in its effort to reduce carbon emissions. I strongly support this legislation.
