On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB703

I am writing in full support of SB 703 to provide legal services for immigrants. There's a dire need for this service to help immigrants of all statuses make it through the immigration system. Not affording legal services is a real impediment to people trying to work their way through the system. How can we expect people to go through immigration experience "the right way" if they can't get legal help?

Thank you.
