

Submitter: Tamara Glover

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB3755

I fully support HB3755. My husband and I have recently retired after working for over 45 years. We have worked hard to save our money and to get our house paid off before retirement. The cost of living has soared over the last 4 years making it difficult to survive. Groceries, gas, Medicare premiums, auto insurance and prescription medications. Utilities have in some cases doubled. HB3755 would be a huge relief for not only my husband and I but all the other seniors struggling to make ends meet. Thank you and I urge you to please support HB3755.
