Unfortunately this doesn't address that fact that many of us seniors have had to downsize our home in the face the rise of utilities, healthcare, property taxes and the high cost of living in the last 8 years. I'm a what Oregon deems a "pioneer " 50+ years in the state. I have paid property taxes for 56 years.

Maybe a Bill that addresses the issue of paying property taxes for a 10 year consecutive period of time would serve native Oregonian's interest in a fair way.
