

Submitter: Karen Rowe

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB703

The circumstances that many immigrants find themselves in across the United States at this time is horrifying to those of us who have supported immigrants and watched them develop into more knowledgeable and more humane citizens than many who were born in the US. Never in my life would I have dreamed that our country would be so polarized over this issue and question the importance of providing support to those who come to America seeking a better life for themselves and their family. Please do what is right and pass SB 703. Thank you, Karen Rowe
