

Submitter: annie capestany

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB703

As the daughter and sister of immigrants, i know that immigrants add value to this country. They are hardworking, innovative, brave and contribute tax dollars. We need to support them so that they stay. We need to make sure that families aren't broken up due to visa problems or lack of legal help. Often immigrants have US citizen children who know nothing of their parents' country or need special services or medical care that isn't available in their parents' country. If their parents leave their children behind that is also traumatic and destabilizing. The best thing is to support immigrants with legal aid and not break up families. People with lawyers are more likely to be successful. But immigration lawyers are expensive and they are very busy right now. Please help immigrants. Don't send them back to often dangerous situations. Vote yes on SB 703.
