

Submitter: Beverlie Woodsong

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure, Appointment or Topic: SB681

We all know the right thing to do is to divest ourselves from fossil fuels in every which way we can in hopes of stalling climate change and perhaps saving our planet from continued devastation due to this Anthropocene era we are now living in which our human population is idiotically destroying the natural balance of Earth. This bill may appear insignificant but in reality it could keep the ball rolling towards change for the better.
