

Public Testimony re SB 703

Dear Senators,

In regards to SB 703, I am writing in, in strong support!

In light of the shameful, thoughtless, mean approach taken by our current federal government, the states are called on to stand for our American values, traditions, and laws. I urge you to support this measure on behalf of our neighbors, workers, and family members who are caught in a global world that is so often unjust and cruel, and not of their own doing. These are just people like you and me who happen to have been born into a place and time that doesn't allow them the freedoms, hope, and dignity that our country has offered to so many of us — until now.

Please vote yes on SB703.

Best regards,
Jennifer Pratt
