

Submitter: Ruppert Reinstadler
On Behalf Of:
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3075

I am writing this in complete opposition of HB3075.

This bill is a disaster to say the least. Asking law abiding citizens to apply for a permit to purchase a firearm makes no sense given this is a violation of the 2nd amendment. On top of that, there is no process in place, nobody to do the training or the application process. This will only further delay the ability for law abiding citizens to make their purchase. Meanwhile, the criminals will continue to buy and sell weapons on the streets. If the state has the money to do this (not to mention upcoming lawsuits) then wouldn't more police and mental health folks be a better alternative? You all took an oath to the constitution please honor that oath and do not pass this unnecessary and expensive bill.

SHALL NOT BE INFRINGED means something. Do the right thing!
