

Submitter: Moses Soriano

On Behalf Of:

Committee: House Committee On Rules

Measure, Appointment or Topic: HB3166

I strongly oppose this measure as it will bring confusion to those participating in the voting process. The current process has served us well for well over 100 years, and is being used with great confidence by voters nation wide. Don't bring in a new, unnecessary process, that requires a degree to understand and explain. It creates suspicion and a lack of confidence in the process. The last thing we need right now is less confidence in our government.
