

Submitter: J Carriveau
On Behalf Of: Concerned Citizens of Oregon
Committee: Senate Committee On Finance and Revenue
Measure, Appointment or Topic: SB681

As members voted into office to support their constituents, we urge you to consider the financial impact on the state revenue of such a bill. It is clear, if you are aware of our recent stockmarket history, that investments in green corporations is going south and investments in fossil fuel is rising. Since we owe billions to PERS, it only makes financial sense to invest where we can gain the most profit, hence lowering the debt on PERS! Please reconsider this very unwise bill and drop it completely. Bad choices will bear bad fruit, and you can't change that fact.
