

Submitter: Greg Moser
On Behalf Of: NFP
Committee: Joint Committee On Ways and Means
Measure, Appointment or Topic: HB5006

Do not eliminate NFP in Multnomah County or anywhere else in this state. I will tell you why;it saves people and lives. In the current political climate we are in the values of family, children, and caring for those who are often in a lower socioeconomic status is forgotten. These values are also being eliminated. The importance of prioritizing public health and the value of all people is being eliminated. Be the solution, not the problem.
