

Submitter: Corrie Fountain

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB1051

I strongly oppose the Governor having the authority to appoint who she deems fit for the State Forester position and encourage this bill to be tossed where it belongs, in the garbage. Our Governor does not equally represent the interests of our state, and as such, does not deserve the authority to decide this position. Respectfully, leave this decision to the people that actually understand our forests and appoint it based on qualifications, not special interests.
