SJR28

Please Pass SJR 28!

Although it is too little, too late to save ourselves and our planet, at least we can say we tried.

It occurs to me as a no brainer to pass this, but something tells me there is a laundry list of nonsensical excuses backed by greedy, short sighted corporatists, or fringe climate deniers or myopic State Treasurers claiming "fiduciary responsibility".

Regardless. the moral imperative is clear, do those making this decision have it?
