

Submitter: Ross Sutherland
On Behalf Of: HB3835
Committee: House Committee On Early Childhood and Human Services
Measure, Appointment or Topic: HB3835

I am an Oregon attorney. I oppose this bill because it makes our children in care less safe. People could already restrain anybody whose actions will cause imminent serious physical injury under the defense of self or others; this bill is unnecessary on that point.

It also eliminates liability though which makes it more likely restraints will be used. I oppose this bill.
