

Submitter: Karen Moore

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure, Appointment or Topic: SB681

I am for SB681. The state should focus its investments on alternative source of energy. The fossil fuel infrastructure is well established and should only be invested in by the companies themselves. This energy source is contributing to climate change and is being reduced world wide. It would serve Oregon well to develop independent alternative energy sources that do not contribute to climate change. This could lead to being independent from outside energy sources and lead Oregon to a better future for our children and grandchildren.
