Measure, Appointment or Topic:

HB3076

I am writing to oppose HB3076 as it creates an undue hardship on Oregon small businesses. This is going to cause small business to likely close shop and/or leave Oregon which will harm both Oregon's economy and its people. Oregon makes the claim that it is in favor of promoting small businesses and then this is done which harms those various businesses Oregon claims it wants. This will not only harm small business, but larger business will pass this increased cost onto the people of Oregon and the living and the cost of goods will increase again which will harm Oregon families. Vote this bill down as it will promote harm to Oregon families and businesses, this is bad for Oregon.
