

Submitter: Carolyn Hattrup

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure, Appointment or Topic: SB681

Fossil fuels are still necessary for cars, trucks, emergency vehicles, heating of homes. They become even more necessary under the unfortunate circumstance of recent terrorist attacks on an American based electric vehicle company. As more drilling for fossil fuel takes place, it is prudent to invest in an industry that is going to grow.

Restricting investment will prove to be counterproductive and possibly very costly to the state.
