

Submitter: Mikeal Jones
On Behalf Of: Global Warming Coalition
Committee: Senate Committee On Finance and Revenue
Measure, Appointment or Topic: SB681

Please pass this important prohibition on investments in fossil fuels. I worked for 30 years on the Umpqua National Forest, documenting the increase in water temperature of the North and South Umpqua Rivers and their tributaries. These streams show us that the world has warmed from the burning of fossil fuels, reducing the diversity and quality of life for aquatic insects, plankton, fish, all wildlife and humans around the world. Al Gore and Greta Thunberg told us years ago about the inconvenient truth of our warming planet. This bill is the least we can do to reduce the inevitable result of that terrible truth. Thank you, we're all in this together. Mikeal Jones, age 77 Roseburg Oregon
