

Dear committee,

I never stop says thank you organization IRCO because they rental assistance program enough for helping me when I was going through one of the toughest times in my life. After losing my job, I fell behind on rent and was facing the possibility of eviction. I was overwhelmed, unsure where to turn, and terrified of losing my home.

The IRCO team at the rental assistance program was incredibly understanding and supportive. They guided me through the application process step by step and helped me secure the financial assistance I needed to get back on track. Thanks to their help, I was able to catch up on my rent and keep my home.

This program truly changed my life, and I am forever grateful for their support. It gave me the breathing room I needed to get back on my feet and continue providing a stable environment for my family."

I want to express my support to programs within the framework of the state budget since help in payment of housing is the most necessary help for many people.

Haitham Al- Bachachi, client IRCO
