

Submitter: Ann Chetock

On Behalf Of:

Committee: House Committee On Climate, Energy, and
Environment

Measure, Appointment or
Topic: HB3932

Beavers are an important part of good water quality in Oregon's streams. Please protect our water and vote in support of this bill. I am a kayaker and paddle the rivers in Oregon. It's important to me to be able to enjoy our clean rivers and to view wildlife in a natural setting. Again, I support this bill and hope you will, too.

Thank you
