

Submitter: Cynthia Stubenrauch
On Behalf Of:
Committee: House Committee On Climate, Energy, and
Environment
Measure, Appointment or Topic: HB3932

I hope you will do the right thing for our beavers and for our waterways. Beavers are nature's engineers. They build waterways that are needed for all life. Trapping them removes them from the equation and is detrimental to the work they do. Please vote yes on HB 3932.
