Re: HB 3932  
From: Mitch Williams

March 22, 2025

Dear Pam Marsh,

I fully support your bill 3932. I have first hand experience in witnessing the over trapping of beavers during the course of the last 25 years. The impact has been devastating for creeks and streams throughout Oregon.

This is a practical bill in support of the beavers and enhancement of Oregon's water quality. I understand this is a public lands proposal, which should alleviate private property owners concerns. I am a member of ONDA and I am encouraged by their involvement of your bill and trust that you pass this critical legislation!

Sincerely,  
Mitch Williams  
Brightwood, Oregon
