When I moved to Lebanon in 2006, my property tax liability was \$2281.85. Fast forward to 2025 and my property tax liability is \$3629.66. My homeowners insurance went from \$650 a year to over \$1200 per year. Lovely Lebanon has added a fee to our incredibly expensive water of \$18.00 per month without even voting on it. I feel discouraged with the cost of EVERYTHING rising, I may never get to retire.

I request that a freeze on property tax for seniors be applied as long as it is not owed back when I pass away leaving further debt to my children. Thank you for your consideration.
