Our schools need full funding. Our kids need a quality education. This funding package fails to invest in our future -- Oregon kids. And instead maintains the inadequate status quo. One where you all do not fund what your own committee says would be a quality education. We feel this lack of funding acutely at our schools, where we do not have enough adults in the building to support all the kids who need time and attention to learn, get mental and behavioral health supports, and have special education supported.
