

Submitter: Wendy Stickel

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

I live in Portland and am aghast at the statistics that show only 2% of the gun dealers in the state were inspected last year, when experience shows that one third of those inspected are violating the law. We cannot ever hope for ordinary citizens being able to feel safe if the gun dealers are not subject to the same level of oversight and accountability as our restaurants.

Please pass HB 3076 to keep Oregonians safe from needless gun violence.
