

Submitter: Gretchen Pederson

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3932

I urge you to do whatever possible to protect beavers in our Beaver State and to encourage them to expand into waterways throughout Oregon.

These hard-working mammals provide free labor 24/7 to slow water flow, retain moisture, and repair ecosystems to better sustain other wildlife and to encourage riparian plant growth.
