

Submitter: John Jensen

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3932

My name is John Jensen. I live in Oregon City and have a ranch dedicated to wildlife on Trout Creek in the Blue Mountains north of Burns.

My Trout Creek ranch conservation work, and volunteer work with ONDA has shown me the undeniable value of beavers for healthy waterways. I've seen firsthand how beaver work improves water quality, biodiversity, resilience to drought, fire, spring flooding, and more. This bill is a low cost, wise investment in Oregon's natural heritage, honoring our 'Beaver State' legacy. I urge your yes vote on HB 3932.
