Measure, Appointment or Topic: HB3932

In 1980 I gathered signatures to list a ballot initiative banning the use of leg-hold traps in Oregon, but most voters rejected the ban. Beavers were targeted for their pelts and as a "nuisance" species or as "vermin."

Now is the time to pass HB 3932 and have ODF&W adopt rules to better protect beavers, an iconic species that does so much for a healthy ecosystem and water conservation.
