

Submitter: Alex Steckel

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3932

I strongly urge you to pass this piece of legislation because it will not only protect these important builders of streams, but would also help in the retention of our water resources. I have witnessed how the reintroduction of beavers has increased the vitality of a parched, lifeless environment, into an oasis that has an abundance of water, flora and fauna.
