

Submitter: Adele Dawson

On Behalf Of:

Committee: House Committee On Climate, Energy, and
Environment

Measure, Appointment or
Topic: HB3932

I strongly support HB 3932. Beavers improve water quality wherever they're allowed to proceed with their lives. Trapping beavers is so archaic and misguided. Beavers work for the environment and us as a result. Please support HB 3932 and let beavers thrive.
