

Submitter: Carrie Cooke
On Behalf Of:
Committee: House Committee On Climate, Energy, and Environment
Measure, Appointment or Topic: HB3932

I'm writing this testimony in strong support of HB 3932.

This is just common sense legislation to assist in the recovery of an iconic Oregon species that has ecological benefits for habitat and water conservation. If beavers are given this limited protection, and allowed to exist in an area without being trapped or hunted out, they can have long term positive effects on restoring these waterways.

I urge you to pass this bill.

Thanks for your time.
