Measure, Appointment or Topic: HB3870

As a volunteer firefighter for five years I personally see the need for the continued support from the state. As most departments in the state of Oregon are primarily volunteer and not paid because of the size of the city/town they are located in. This directly relates to the fact that we are only able to ask our community for so much support when it comes to tax raises and fundraisers. The aid this measure would give would be huge.
