

Submitter: Carol Edwards

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3422

I am in support of HB 3422. I feel that it is very important that the Oregon Facility Siting Council require applicants consider alternative locations instead of Exclusive Farm Use Lands. These lands are important for wildlife, deer, elk, and numerous speices of birds, Eagles, geeae, ducks, Egrets, wrens and many more. Exclusive Farm Use Lands are important to the economics of small comunities. Once the land is used for non farm use, the land can not be returned to its natural pristine state for farming. Again, I am for HB 3422.
