

Submitter: David D Hunter

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or
Topic: SB75

I and my family oppose SB 75. The hatred of the party in charge of rural Oregonians is very clear, that is why I no longer use the "D" word, I call your party the anti-America American Marxist party because you hate American and especially hate working rural Oregonians who don't want to live in disgusting drug infested cities. The fire map sucked and caused financial impact of loss of homeowner insurance. The issue really is that both the state and federal government have not managed the forests over the last 40+ years. As a forester and having worked for the USFS I have seen the lack of management of "our taxpayer" forests. The environmental groups have actually done more damage to the forests by their American Marxist ideology. It is time to get back to actual forest management, the spotted owl is being taken over by the Barred owl, basic evolution facts, having the federal government shoot the Barred owl just proves the lack of forest management. Climate change or whatever the American Marxists want to call it crisis is a hoax and is totally about control. My family is tired and fed up with the government wanting control. As taxpayers, we want forest management and usefulness of the forests to help pay for schools, roads, and more that were promised from both state and federal forests. Our own government has failed to provide us taxpayers proper forest management. Your agenda is failure, that is why my family opposes SB 75. I fought wildland fire in leadership roles 25+ seasons and have watched the politics in that, one of the reasons I left, didn't want to see any more people killed by poor forest management. This bill does what, planning, well the more people plan the more plans fail. I and my family oppose SB 75.
