

Submitter: Nathan Rudder

On Behalf Of:

Committee: House Committee On Climate, Energy, and
Environment

Measure, Appointment or
Topic: HB3932

I'm against this because this is away of life for people. Just because certain people might not agree with things doesn't mean they can cancel something like trapping for people who have done it there whole life. This is a tradition that's been passed down for so long. Trappers do more for the wildlife than any person protesting this.
