

Submitter: JD Brock

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3932

If passed this would greatly hinder wildlife agents of any kind to effectively aid in the removal and or relocation of beaver in areas that there activity's are a risk to the public safety . Examples are flooding, erosion, and tree damage . Wildlife agents must be able to lawfully continue to operate responsibly amongst the general public where the root of the conflicts exist. This law would make that impossible. A domino effect of beaver / public conflict would rapidly follow . Opposed...
