

Submitter: Janice Asher

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3932

Please support HB 3932. The bill supports nature's natural ecosystem engineers, the Beaver. It will close hunting and trapping of Beavers on waterways and public lands deemed impaired by the DEQ. Scientific evidence shows that Beaver dam complexes can mend most of our water quality issues. It is important to support nature's efforts.

Sincerely,

Jan Asher
