I find it disturbing that the State has taken four poorly written and unconstitutional bills. Crammed them into one giant poorly written and unconstitutional bill. No fiscal plan or study done on any of these. The Supreme Court has already set precedent on these issues and we the people find it egregious that our tax dollars are spent to remove our constitutional rights. I firmly believe all parties involved need to read the constitution. It's obviously lost on our State government. Why must law abiding citizens be punished for the lack of prosecution on the AG and DA's part? Thank you.
