

Submitter: David Kay

On Behalf Of:

Committee: House Committee On Climate, Energy, and  
Environment

Measure, Appointment or  
Topic: HB3932

We appoint and employ good people who are trained in scientific disciplines to make this type of policy decisions. We need to let them do their jobs. The idea of legislators and lay people forcing their opinions which are contrary to the findings of these experts is foolish and counter productive. I urge a NO VOTE. Thank you D R Kay
