

Submitter: Michael Martell

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3932

Beaver trapping regulation is effective under current ODFW guidelines. Please reject HB3932. I have been a trapper my entire life. Trapping in general is not a sport or hobby. Trapping and trappers help conserve the animals of this state. HB3932 will not help the beavers it will hurt them. The beaver will suffer. i strongly oppose HB3932 and hope you do as well.
