

Submitter: Chris Young

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB301

Honestly I don't use this stretch of river anymore because giant waterski boats have wrecked it. As is the case with every body of water in Oregon and beyond. And the 80 20 rule applies with the big wake surf boats. Only 20% of these boaters show wake courtesy while on the water. 80% are not aware, making "regular" boaters use extreme caution and evasive maneuvers. Giant surf boats have hurt fisherman and recreational boaters through out Oregon.

Any legislation to limit them, I support.
