Re: Support for HB 3932

Greetings House Committee on Climate, Energy & Environment,

The Klamath-Siskiyou Wildlands Center encourages the House Committee on Climate, Energy & Environment to pass HB 3932. This bill advances measures that help enhance wildlife habitat and water on the landscape. For the record, we would like to submit this 2020 report from the Ochoco National Forest and Crooked River National Grassland, which speaks to the benefits of having beaver on the landscape and living across public lands. [The letter is part of ODFW's archive and can be read at this link.](#)

For the Wild,

Michael Dotson
Executive Director
Klamath-Siskiyou Wildlands Center
Ashland, OR
