

Submitter: Ian Beveridge

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB243

This bill is a direct attack against law abiding citizens with no proof this will lower crime or keep Oregonians safer. This, along with all other proposed and active bills going against the second amendment are unconstitutional and drafted by design to make legal firearm owners criminals. We have the RIGHT to protect ourselves and to hunt. This directly interferes with our legal ability to purchase and possess firearms which by definition is unconstitutional.
