

Submitter: Emily Hutson

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB243

To whom it may concern: I lost a dear friend to suicide almost 12 years ago. He was able to purchase a gun and kill himself the same day. A 72 hour "cooling off" period would certainly save lives while not restricting access to guns to those who need them.

I am also in favor of expanding the list of places where concealed carry is not allowed; for example - the Oregon Zoo. I bring my children there often and would not like to be concerned about gun violence.
