

Submitter: Adrian Jewett

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB301

To Oregon Legislature,

We all need to share the waterways! I have been on this body of water for the last 27+ years, as a water rescue technician. I have seen accidents and rescued way more kayak, canoe, and paddleboarders than boating accidents. Also when it comes to erosion, the high waters cause way more erosion than wakes ever do!! Let's all share the waterways and get along. There is always a few both sides that try and ruin it for everyone!! Let the Sherriff deal with those individuals!!

Thanks.
